PENSIONER NEWSLETTER

Your quarterly news update - July 2018

MESSAGE FROM THE CEO/PRINCIPAL OFFICER

Welcome to the second issue of the Pensioner newsletter for 2018.

The Financial Services Board (FSB) has formally taken up its new mandate as the Financial Sector Conduct Authority (FSCA), effective 1 April 2018. This marks the formal implementation of the Twin Peaks model of financial sector regulation, as envisaged in the Financial Sector Regulation Act 2017 (FSRA). Finance Minister Nhlanhla Nene, has now signed the Commencement Notice for the FSRA, formally establishing both the FSCA and its sister organisation, the Prudential Authority (PA).

Mr Sam Camilleri - CEO/Principal Officer

What the new regulations aim to achieve;

- Protect financial customers by promoting their fair treatment by financial institutions,
- Providing financial education programmes and promoting financial literacy,
- Enhance and support the efficiency and integrity of financial markets,
- Assist in maintaining financial stability,
- Ensure solvency of financial institutions,
- Support the overall policy objectives of financial inclusion and transformation of the financial sector.

Once fully phased in, the Twin Peaks regulatory model will focus on a more harmonised system of licensing, supervision, enforcements, customer complaints, appeals and consumer advice and education across the financial sector.

PROOF OF LIFE (DECLARATION FORMS)

The declaration form is a very important document for Pensioners and it is crucial that Pensioners complete and submit the declaration form annually with a recently certified copy of their ID. The declaration form provides the Fund with proof of existence of a Pensioner. Pensioners may submit their completed declaration form and email these forms to the Fund at: info@njmpf.co.za or fax to: (031) 266 6715. The originals must then be posted to the Fund at: P.O. WHAT IS INFLATION?

Inflation is the rate at which the general level of prices for goods and services is rising and, consequently, the purchasing power of currency is falling. Central banks attempt to limit inflation — and avoid deflation — in order to retain the smooth running of the economy.
