

NJMPF

Your Fund, Your Savings, Your Future

In-House Living Annuity Portfolio 2024

ABOUT THE FUND

The Provident Fund is a defined contribution fund established in 1996. Member and Employer contributions are invested in a portfolio of investments, mainly in the local stock exchange, the Johannesburg Stock Exchange and in global markets. The type of investments are regulated by Section 36 of the Pension Funds Act (Regulation 28) so that the portfolio is well suited to retirement fund requirements.

INVESTMENT TARGET

- * To achieve a long-term real return of at least CPI plus 4.5% net of investment fees over rolling five year periods.
- * To add returns of 2% a year in excess of that achieved from rolling the passive benchmark portfolio measured over a 5 year period.
