In-House Living Annuity Portfolio 2025

ABOUT THE LIVING ANNUITY PORTFOLIO

The Provident Fund is a defined contribution fund established in 1996. Member and Employer contributions are invested in a portfolio of investments, mainly in the local stock exchange, the Johannesburg Stock Exchange and in global markets. The type of investments are regulated by Section 36 of the Pension Funds Act (Regulation 28) so that the portfolio is well suited to retirement fund requirements.

The NJMPF Living Annuity Portfolio is invested in the Provident Fund Portfolio, meaning that retirees who choose the in-house Living Annuity benefit from the same investment strategy, performance, and risk management applied to the Provident Fund. This ensures continuity, compliance with Regulation 28, and access to a diversified, well-managed portfolio.
